

CHINA SHINE

DISHWASHING DETERGENT

CHINA SHINE is a hand dishwashing detergent formulated especially for cleaning dishes, silverware, glasses, pots and pans. It is made from a blend of the finest detergents available.

Dishes, glasses, and eating utensils washed with CHINA SHINE drain immediately and do not water-spot. Especially recommended for washing glassware where any residue is instantly detected.

CHINA SHINE easily and quickly cuts grease and removes lipstick, egg yolk and milk fat. It contains stabilizing agents which prevent adverse action by food particles or greasy material. The calcium and magnesium compounds found in hard water do not affect the cleaning or lathering power of CHINA SHINE. No hard water scum is formed to cling to the dishes and glassware, so hand polishing is unnecessary. Being synthetic and containing no soap, CHINA SHINE is perfect for washing windows and mirrors, leaving no streaks or film, it also makes an excellent car wash shampoo.

At a use-dilution of $\frac{1}{4}$ ounce per gallon, only a few ounces of CHINA SHINE are needed for a sink full of water. It is instantly soluble and produces long lasting suds at the touch of water - hot or cold, hard or soft - even salt water.

TECHNICAL DATA

Physical State	Viscous liquid
Color	Amber
Odor	Citrus
Weight per Gallon	8.59 lbs.
Specific Gravity	1.03
Flash Point	None
pH - Concentrate	8.6
pH200:1 Dilution	7.6
Miscible	In any proportion with water
