

LUSTRE QUIK

HIGH SPEED FLOOR FINISH

LUSTRE QUIK is a high gloss floor finish offering an outstanding balance of performance characteristics. It dries with exceptional gloss without buffing and has excellent wear properties, yet it responds beautifully to high or ultra-high speed burnishing for a deep “wet look” gloss.

LUSTRE QUIK demonstrates excellent slip resistance and leveling as well as long-term durability. You will find it particularly outstanding in heavy traffic areas because of its superior resistance to scuffing, heel marking and dirt pickup.

LUSTRE QUIK is:

- Durable - for longer life and higher appearance levels between maintenance operations.
- Repairable - since scratches and soils don't penetrate deeply into the polish film, less maintenance is required to restore the finish's appearance.
- “High speed maintainable” - high speed buffing is the ruin of some polishes because it is too abrasive to the surface film, but you will find that LUSTRE QUIK stands up to high speed maintenance extremely well.
- Not “machine dependent” - it is hard and dries bright without buffing.
- Versatile - an outstanding choice for a wide variety of applications.

For best results, apply thin, even coats to a clean floor. If no seal is used, three or four coats are recommended.

TECHNICAL DATA

Physical State	Liquid
Color	Off White, Semi-translucent
Film Color	Clean, non-yellowing
Odor	Mild
Viscosity	Free flowing
Storage stability	Indefinite

Freeze thaw cycles	3 cycles
Buffability	Excellent response
Leveling	Excellent
Drying time (recoat)	20-30 minutes
Gloss	Excellent
Scrubability	Excellent
Removability	Easy
Heel mark resistance	Excellent
Scuff resistance	Excellent
Hardness	Outstanding
Total active	23%
Floor solids	21%
pH	8.2 to 8.6
Weight per gallon	8.6 lbs.
Flash point	None
Coverage per gallon	1500-2000 sq ft
