

# LUSTY

## BOWL, PORCELAIN AND TILE CLEANER

This versatile acid product was formulated as a complete washroom cleaner and has proven to be just that. It is a heavy-bodied liquid that clings to surfaces for faster action. LUSTY will clean and deodorize all bathroom fixtures and surfaces, including metal attachments. It leaves a fresh, lingering fragrance in the bathroom.

Diluted with water for general use, it is a blend of non-fuming acids and cleaning and deodorizing agents. It is excellent for institutions that do not permit use of any hydrochloric acid based products.

LUSTY removes all traces of crust, film, hard-water scum, ureic acid salts, organic matter, rust, stains and lime scale from tubs, bowls and sinks. Organic matter is flushed away without danger to pipes, fixtures or plumbing, and septic tank digestion is not affected. Daily use prevents rust and scale from re-forming in wash basins and toilet bowls.

LUSTY is excellent for use in hospitals, nursing homes, hotels, motels and institutions for cleaning every fixture in all washrooms and bathrooms. It is easy to work with and does not grind the enamel off sinks and tubs as do harsh abrasives. Lusty is economical to use, too. It can be diluted as much as 7 to 1 for routine maintenance.

Use LUSTY on all these surfaces:

- |                         |                           |                 |
|-------------------------|---------------------------|-----------------|
| Toilet bowls            | Drinking & Wash Fountains | Stainless Steel |
