

MAD MAX

HEAVY DUTY DEGREASER
IDEAL FOR AUTOMOTIVE, INDUSTRIAL & FOOD SERVICE INDUSTRIES

MAD MAX Cleaner Degreaser is a concentrated multi-purpose liquid alkaline detergent for use in manual applications and in foam guns, pressure washing, steam cleaning and automatic scrubbing equipment. It is safe to use on most water washable surfaces and is free rinsing.

MAD MAX Cleaner Degreaser works quickly and actually lifts grease and oil and holds it in solution so it can easily be picked up or hosed off. It cuts soils from metals and alloys and also temporarily protects against damage from rust or corrosion. It rapidly removes grease, oil, wax, ink, soot, creosote, dyes and other stains from metals, concrete, plastics, rubber and other surfaces leaving no film or streaks. MAD MAX Cleaner Degreaser is recommended for use in food processing, automotive, aircraft, marine and trucking industries as well as in metal working plants of all types.

MAD MAX is very efficient in removing grease from equipment and floors in meat cutting operations, cleaning restaurant kitchen floors, and removing soap scum from shower stalls. The use of a foam gun is very helpful in these and other situations where the cleaning of vertical surfaces is required.

Caution: Before cleaning painted surfaces check a small area for paint breakdown. Not recommended for use on aluminum surfaces.

TECHNICAL DATA

Physical state	Liquid
Color	Red
Weight per gallon	8.65 lbs.
Flash point	None
pH - Concentrate	13.8
Miscibility	In any proportion with water
Rinsability	Excellent
