- Car Dealers
- Truck Washers
- Fleet Maintenance
- Equipment Dealers
- Heavy Equipment Fleets

Excellent for use on:

- Road Grime
- Soot
- Break Dust
- Light Scale
- Rust
- Oxidation

DIRECTIONS

DANGER Wear proper PPE when using this product - Acid Resistant Gloves, Eye Protection, and Respirator or with adequate ventilaton.

Dilute in a plastic pail by adding 1 part Aluminum Cleaner to 10 parts cool water (add to water carefully). Adjust dilution according to the degree of soil encountered.

Apply with a long handled brush or sprayer on surface to be cleaned.

Allow to soak for 1-3 minutes, then agitate with a brush.

Rinse thoroughly and repeat as needed. To enhance the process for truck/equipment washing, apply a solution of Verax STRIKE to neutralize the acid prior to agitation and rinsing.

If the solution used is too strong, whitening may occur. If allowed to dry on surface, reapplication will be necessary. Do no use on polished aluminum.
