

Manufacturers of Maintenance Chemicals Since 1913

January 2025

DM-7
Non-Conductive Lubricant for
Mechanical & Electrical Equipment
Part No. 1260

The product will be safe when used in accordance with the stated directions and applications located on the label.

USE CATEGORY: H-2

Definition of this use category is listed below:

Lubricants – General incidental contact

“This product is acceptable as a lubricant where there is no possibility of food contact in official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs. Such compounds may be used as lubricants, release agents, or antirust films on equipment and machine parts or in closed systems (e.g. hydraulic systems) in locations in which there is no possibility of the lubricant or lubricated part contacting edible products.”

The final granting of authorization for the proposed use of such compounds is the responsibility of the inspector in charge of the official plant.

Sincerely,

Regulatory Specialist
