DYNA-CLEAN

Highly Concentrated Non-Butyl Cleaner

Part No. 310

The NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2008), has registered DYNA-CLEAN, with references available at www.nsfwhitebook.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

The product will be safe when used in accordance with the stated directions and applications located on the label.

USE CATEGORY: A-1
NSF Registration: 135054

Definition of this use category is listed below:

General Cleaners

“This product is acceptable for use as a general cleaner (A1) on all surfaces in and around food processing areas, where its use is not intended for direct food contact. Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use. A potable water rinse of cleaned surfaces is required after use of this product. When used according to manufacturer’s instructions, the cleaner shall neither exhibit a noticeable odor nor leave a visible residue.”

The final granting of authorization for the proposed use of such compounds is the responsibility of the inspector in charge of the official plant.

Sincerely,

Regulatory Specialist
